" Hostel Management System of Navpurush Hostel Ghazipur"

INTRODUCTION:

About Project : The project is all about maintaining records of student, records of the room and all other information in the computerized way by which is very easy to maintain. The menu details of mesh, details of visitors. Fee deposition details, every activities of students which is taking place in Hostel. Daily extracurricular activities which is taking place in Hostel. The details of students is maintained according to this course & their department.

About client : The "Nav Purush Boys Hostel" is situated at Ghazipur. It is the hostel of Technical education & research institute P.G. college Ghazipur. There are boys hostel of the Technical education & research institute P.G. college and Nav Purush hostel is one of them. There are about 150-200 rooms in this hostel and students are approximately 500.

OBJECTIVE :

The main purpose of the project is to develop a software which will be user friendly and easy to operate. This system will store the information about the student such as name, address, rollno, food category such as vegetarian or non-veg. the proposed system has the module that will fulfill the requirement and help to manage the Hostel.

This system is very secure because it requires login and password to start the system. It has a module called report which will give the details of unpaid fee monthly or yearly.

The proposed system will be efficient and easy to operate which can easily maintain the records of the Hostel.
